Reed files for insurance commissioner

A member of Insurance Commissioner Matt Denn's staff will be running for Denn's position as his boss seeks the state's Democratic nomination for lieutenant governor.

Gene Reed, director of Market Conduct and Analysis for the Delaware Insurance Department, filed his paperwork March 6.

Reed has been with the insurance department for 23 years, serving under both Republican and Democratic administrations.

Reed indicated he plans to continue and expand on consumer advocate programs and insurance reforms that will build on Denn's work.
